

**CNAR 2022 WORKSHOP:  
GOVERNANCE FOR REGULATORS  
OCTOBER 24<sup>TH</sup>, HALF DAY (A.M.)**

**W**hat You Will Learn: This program is designed for regulators with some board or council experience who want to learn more. We will cover topics such as working within a co-governance model with public representatives, assessing and addressing key trends affecting the profession, establishing the regulator's strategic direction, providing effective regulatory oversight, governance and regulatory performance assessment, and working with a CEO or Executive Director. Attendees will learn to apply these practices to common governance challenges.

This workshop will also appeal to regulators preparing for legislative changes and the challenges or opportunities they present for the profession, such as increased governmental oversight and control, changes to regulatory models, amalgamation, and divestiture of association functions.

**Who Should Attend?** Board or Council members, CEOs, Executive Directors and staff of professional regulatory organizations who wish to learn more about navigating issues, challenges and trends in governance.
